DHAROHAR

April - May (2022-23)

"Our rich and varied cultural heritage has a profound power to help build our nation" – Nelson Mandela

It gives me immense pleasure to present this edition of the newsletter to our readers. After two years of silent corridors and empty classrooms, it was incredibly fulfilling and joyful to welcome our students back to school. Their physical presence and their bubbling energy are what we were missing during the pandemic times. We are looking forward to reacclimatize the children to the school environment and rebuilding positive connections with them. The children were equally excited to be back and filled the school and our hearts with nothing but joy. Their enthusiasm and active participation in assemblies and activities conducted in the month of April and May are the very essences of this newsletter.

In the past two years, where on the one hand, we felt helpless being locked in the confinement of our homes, yet at the same time, we witnessed how beautifully the earth healed itself and the heritage restored. To foster the spirit and willingness, in them, to sustain our age-old DHAROHAR- our heritage, we designed a few activities and campaigns emphasizing the same, a few glimpses of which you'll find in this first newsletter of the session.

Hope you'd like and appreciate the efforts of the students, staff, and administration. Looking forward to a beautiful and everlasting association with you.

To,
The honorable Prime Minister
Shri Narendra Modi Ji

Respected Sir,

I am so glad that today got the opportunity to write a letter to you. I want to convey my message to you that we are facing many challenges regarding to our soil and environment because of soil erosion, deforestation and increase in pollution etc. These challenges cause many problems like desertification, loss of fertility of soil, less production of crops, vegetables and fruits and also people become homeless etc. It is our responsibilities to stop all the activities regarding to our soil. As you are head of the country you can do act against it, so that people will follow the act and get good result. I humbly request to you to do something to protect the mother of all mothers "The Soil". If soil is healthy, we will be healthy too
