- Formative Assessment

DR. RENUKA RAWAT

Message from the Incharge

I hope this letter finds your family well and your children brimming with the same energy and curiosity they bring to our classrooms each morning. As we settle into the rhythm of the term after a wonderful fortnight of action packed fun filled activity bonanza, I wanted to take a moment to write to you — not with timetables or notices — but with something a little closer to the heart.

Raising and educating children in their earliest years is one of the most profound privileges any adult can hold. At ASN, we believe deeply that these foundational primary years are not simply the beginning of the formal school — they are the beginning of a child's story of who they are as a learner, a friend, and a person. We, both parents and teachers alike are the environment our children grow in and explore themselves.

These years deserve our most patient, most joyful, most thoughtful attention and a constant structure. Structure and discipline in the foundational years are Rhythm and Routine and not correction or consequence.

Think of it this way: a garden without a fence is not freedom for a seedling — it is exposure. The fence does not restrict growth; it protects the conditions in which growth becomes possible.

At home and school , if provided with both warmth and structure in form of timetables, transitions and predictable rhythms of bedtimes, and mealtimes, learners will settle in faster , become more ready resilient and purposeful.

We are so grateful for the partnership we share with each of you. You know your children in ways we never fully will — and we know things about how they learn that might surprise even you. Together, that is a remarkable combination.

Let us all work together for this wonderful journey !

 renuka.rawat@asnschool.org

The new academic session began on a bright and cheerful note as we warmly welcomed our young learners of the Lower Primary Wing (Classes I & II) with lively Welcome Songs and thoughtful Welcome Cards, creating a happy and comforting start to their school journey. Adding to the excitement, each class was given a unique animal-based identity, helping children feel a sense of belonging while encouraging teamwork, confidence and connection within their groups.

The little ones thoroughly enjoyed the energetic Animal Song & Dance, their excitement doubled as they received the adorable Animal Badges, making them feel special and proud of their class identity.

The highlight of the day was the fun-filled “Action Adventure Trail” - an engaging floor game where children hopped, jumped, danced and moved in zigzag patterns over letters and numbers, making learning active and joyful.

From storytelling to speaking activities, every moment was filled with enthusiasm, laughter and participation.

BEGINNING BELLS FOR THE RISING STARS

Special Assembly on School

A special welcome assembly titled “Beginning Bells for the Rising Stars” was conducted by the Lower Primary Wing. The assembly began with the morning prayer, creating a peaceful and positive atmosphere.

A creative presentation, where a teacher personified ASN School, helped students reconnect with their surroundings. This was followed by the introduction of the managerial staff. Young learners added charm with lively performances showcasing their class mascots, presenting signature moves of their assigned animal or bird icons.

The assembly concluded with an inspiring address by the LPW Incharge, warmly welcoming the students and motivating them for the year ahead.

EARTH DAY

Our Little Eco-Warriors in Action!

The Lower Primary Wing embraced Earth Day through a joyful week-long journey filled with curiosity, excitement and a whole lot of heart! Learners from Classes 1 and 2 spent time discovering how to care for our planet through engaging stories, cheerful songs and thoughtfully chosen videos. These experiences didn't end in the classroom..they travelled home as flipped learning moments, giving children a chance to revisit and reflect with their families.

One of the most special moments of the celebration was when our children shared their promises to the Earth. With bright handprints and even brighter ideas, they expressed simple yet powerful actions they wish to follow, reminding us that even the smallest hands can create a big impact.

EARTH DAY

Our Little Eco-Warriors in Action!

Adding to the spirit, our young creators brought their imagination to life in delightful ways. Class 1 filled the day with colours through their Earth Day colouring activity, while Class 2 designed creative headgears showcasing positive green actions, each one a proud reflection of their understanding and enthusiasm.

The Lower Primary Wing enthusiastically kick-started Global Action Days 2026 with an exciting activity Mapping My Meals! Through engaging videos and presentations, students explored everyday ingredients from across the globe and discovered how food connects us all.

A vibrant basket filled with a variety of food items added to the fun, as students eagerly identified ingredients, discussed their sources and origins and learned how food travels to reach our plates. They also explored locally available fruits and vegetables while thinking about where their meals truly come from. It was a day full of curiosity, discovery and meaningful learning!

Day 2 of our Global Action Days saw our young learners selecting popular and their favorite dishes, from yummy pizzas and relishing noodles to comforting rajma rice and fresh green salads. Working in groups, our learners enthusiastically identified the ingredients in each dish and travelled along with them as they mapped the origins on a world map.

As they traced the journey of these ingredients from different parts of the world to their plates, learners developed a deeper understanding of how food connects us globally. They also discovered the place of origin of various ingredients and how, over time, many of these are now grown right here in India.

Excitement continued as learners brainstormed ways to make their meals healthier and explored local and seasonal alternatives.

This hands-on activity helped students understand the importance of locally available food and those that travel from faraway places, encouraging mindful and sustainable choices that are better for our Earth.

GLOBAL ACTION DAYS

Mapping My Meals

As a joyful culmination of our Global Action Days, students of the Lower Primary Wing participated in the Recipe with Roots activity. Learners brought their favourite dishes with a healthy twist or traditional recipes of their households, using locally available ingredients, celebrating mindful eating. Our young learners confidently shared the names of their dishes and the main ingredients, building awareness about healthy, home-based and culturally rich food choices. The activity beautifully connected learning with real-life practices, encouraging children to make thoughtful and nutritious choices.

Wholesome bites with mindful choices!

Our young learners joyfully participated in a week-long celebration of healthy living for a healthy planet under Global Action Days.

They explored the important connection between food, health, and the environment, gaining awareness about making mindful and sustainable choices. Children learned about a variety of fruits and vegetables, their origins across the world, and how many of them are now grown locally and enjoyed in our daily meals. They also discovered Indian-origin foods, developing a deeper appreciation for the richness of our land.

As a hands-on activity, the children created their own healthy plates and brought nutritious choices in their lunch boxes. This engaging experience helped them understand the importance of balanced diets and healthy eating habits. It was a meaningful and enriching week filled with learning, creativity, and awareness!

GLOBAL ACTION DAYS

Food Security and Climate Change

A mother's love is the purest blessing — a bond woven with care, strength, warmth and endless affection.

Celebrating the most special bond in the most special way, the Lower Primary Wing organised the Mumma-Mia Craft Competition to mark Mother's Day. Our little learners enthusiastically created beautiful handcrafted surprises to express their love and gratitude for their mothers. The activity filled the atmosphere with joy, creativity and heartfelt emotions, making the celebration truly memorable and special.

MUMMA-MIA CRAFT

Mothers Day Celebration

WORLD LAUGHTER DAY

Giggles, goof-ups and lots of laughter!

Our World Laughter Day celebration was full of fun as children took on tongue twister challenges some nailed it, some got adorably tangled and everyone burst into laughter!

The room echoed with cheerful giggles, bright smiles and pure happiness. A day filled with joy, bonding and unforgettable moments.

HAHAHA!

DROP EVERYTHING AND READ!

Celebrating World Book Day

This World Book Day, our little readers paused it all to dive into the joy of reading! Classrooms turned into happy reading zones filled with imagination, excitement and lots of stories. Because sometimes, the best thing to do... is just read!

The Green Tech Show was an engaging activity where students learned about different environmental action symbols.

They expressed their creativity through an MS Paint activity by drawing eco-friendly ideas.

The “I Spy” worksheet & Green Symbol *Pictureka* helped them observe and identify logos for sustainable practices. Overall, the event promoted awareness and encouraged students to care for the environment.

Health and Hygiene Drive

Healthy Habits Begin Early!

On the occasion of World Health Day, our young ASNites learned the importance of maintaining good health through proper hand hygiene.

Students were guided on the correct way of washing hands, understanding how this simple habit can prevent illnesses and keep them safe. Let's continue to nurture healthy habits and build a stronger, happier future!

POTPOURRI

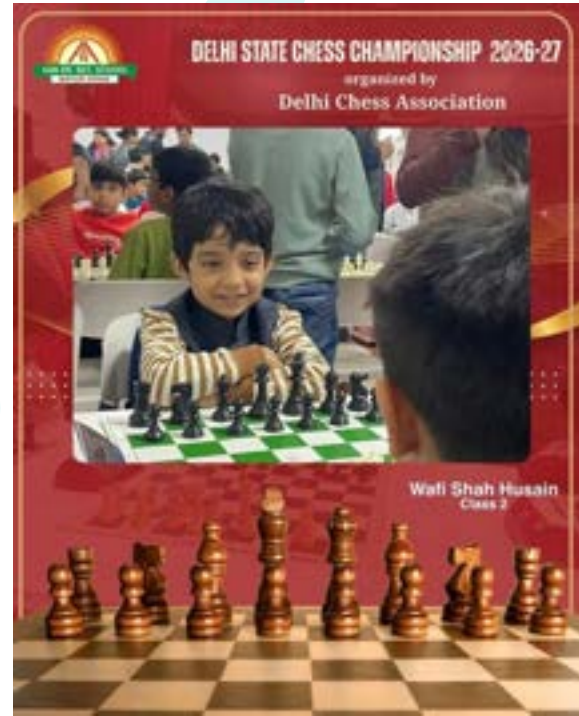

CONGRATS!

Nimit of I-A won gold medals in Skating competition (State Championship held in Kashipur) Under-6 category in both the 200m and 500m events.

Ekansh of I-A represented School at Summer Roller Skating Championship under 7 category

Wafi Shah Husain (Class 2nd-D) has given exceptional performance in Delhi State Under 7 Chess Tournament 2026 making his way in top 3, beating the Delhi no.1 & former state champion 2025

SUMMER Party

ASN Senior Secondary School

CORE VALUES

Environmental Consciousness: Learner to be aware and connected to the environment, develop pro-environmental attributes and skills, so as to inculcate sustainable practices in day-to-day life for a clean and green world.

Social Responsibility: Learner to develop sensitivity, empathy and acceptance for social diversity, encouraging him to apply his knowledge, passion and skills in the pursuit of humanitarian goals.

Cultural Consciousness: Learner to develop awareness of culture in Self and expand understanding, appreciation and respect for cultural diversity of others'.

Global Citizenship: Learner to gain global perspective on contemporary events and issues, developing an understanding of interdependence in international relationships and to work with others to make this world equal fair, and secure for all.
