Message from the In-charge

Dear Parent

What lies behind us and what lies before us are tiny matters compared to what lies within us.” – Henry Stanley Haskins

Let me begin by wishing you all a Happy New Year filled with many successes, good health, and happiness. During this winter break, I hope you all to have a chance to catch up with friends and family and enjoy some rest and relaxation. There is nothing better than some good cheer and laughter with friends and a walk in the fresh air to refresh, rejuvenate and recharge our spirits!

I certainly would spend some time reflecting on 2021 and how this year has helped me grow as an individual and the milestones achieved in my work sphere. One of my all-time favourite quote – ‘Life is not about having everything. It’s about finding meaning in everything’ inspires me to work along with my team to make learning a holistic and joyful experience for my learners.

At ASN, we place great value on seeing our students showing continued success, academic progress, and social emotional competencies as they move through their journey of learning and discovery in these foundational years. I am excited to begin our work for the closing term of school year to ensure that learning continues.

As we ring in the new year, we see this as an opportunity to check in with students and families to ensure that our students are on-track, prepared and ready for the new learning adventures. What I have observed, as we approach the last term of the school year, is that students are not just academically strong but are more self-aware, mindful, and connected with their environment and that our instructional and support team remains energized.

As our partner in progress, you are aware of the many accolades received this year by the school and we continue to strive to be a school focused on educational equity and find unique and innovative ways to partner, support and create opportunities that make our school a place where all children enjoy learning, develop strong relationships, and continue to grow each day socially, emotionally, and academically. As always, thank you for your continued support.

Wishing you and your family a happy , prosperous and safe 2022!

Dr. Renuka Rawat

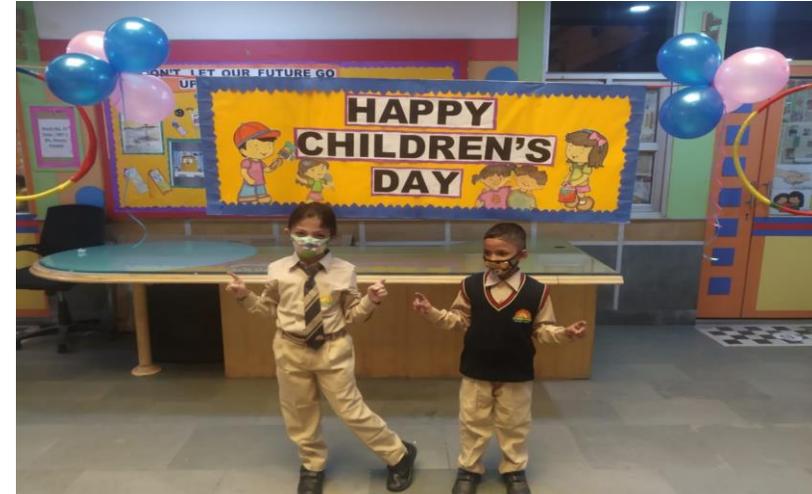

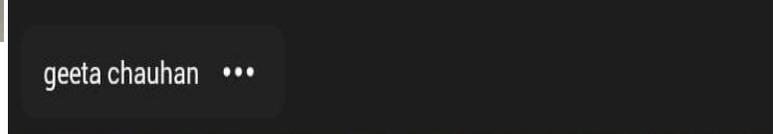

CHILDREN'S DAY

“Children are like buds in a garden and should be carefully and lovingly nurtured as they are the future of the nation and the citizens of tomorrow”. —Pandit Jawaharlal Nehru

Every year 14 November is celebrated as Children's Day to pay tribute to our former Prime Minister, Pandit Jawahar Lal Nehru, for his contribution to building the nation. It is a day celebrating the spirit of childhood. This year also the young ASNites of LPW celebrated the Children's Day with great fervour and enthusiasm. Though the celebration was virtual, but the teachers made sure that the day become memorable for the young learners. Children enthusiastically took part in various activities and moved their feet on different dance numbers.

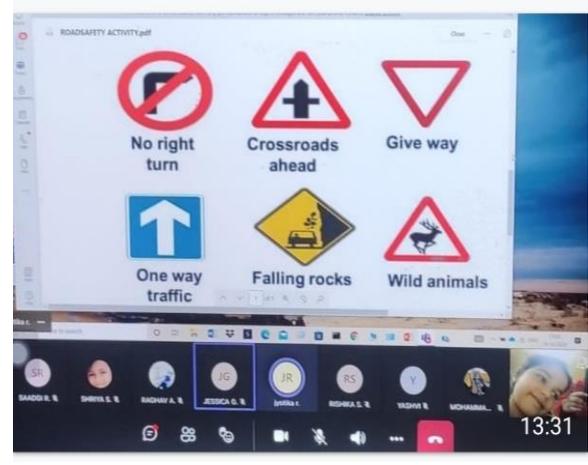

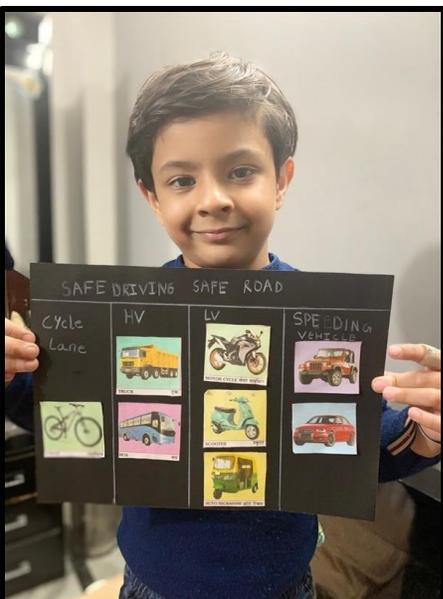

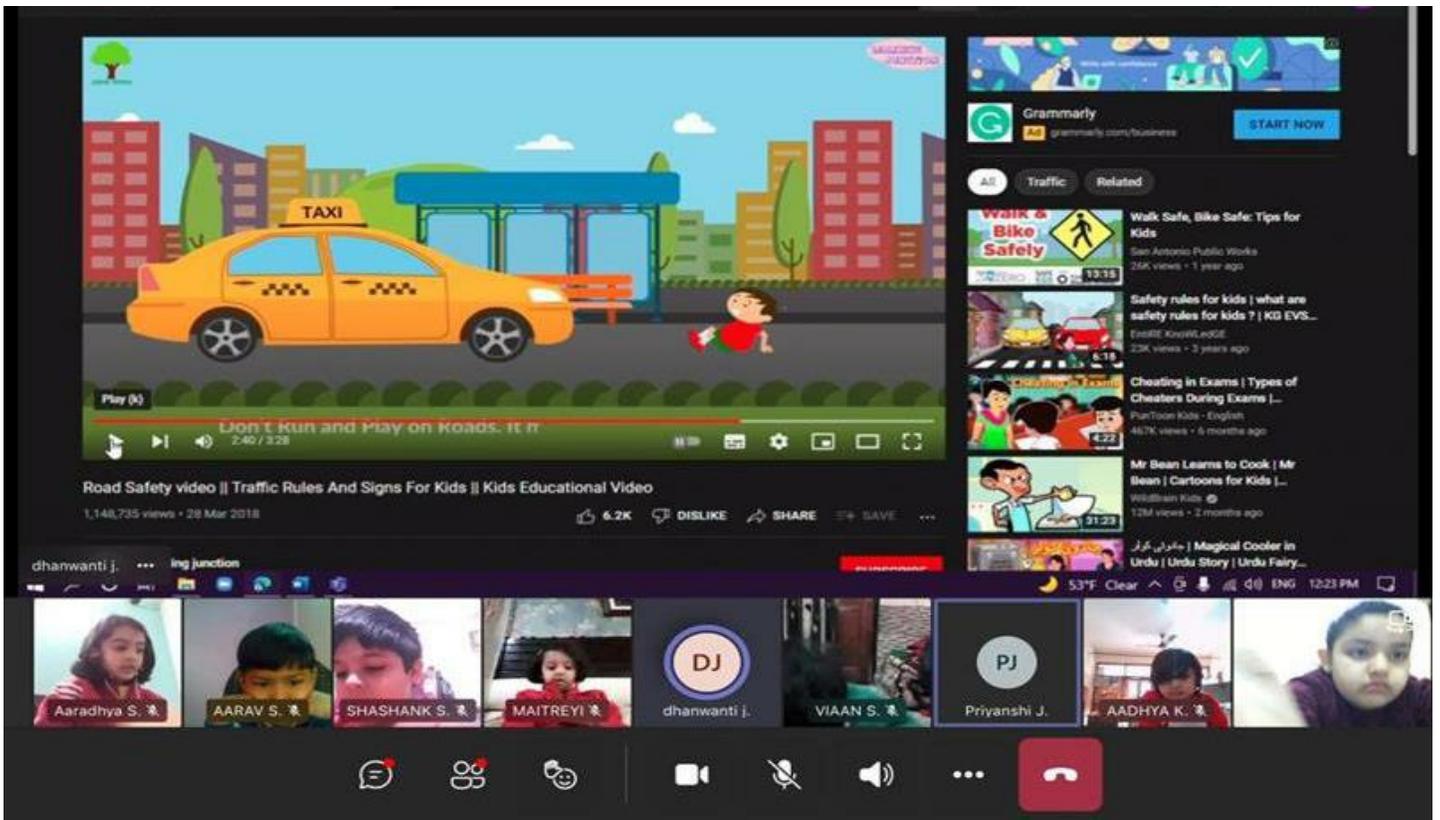

ROAD SAFETY

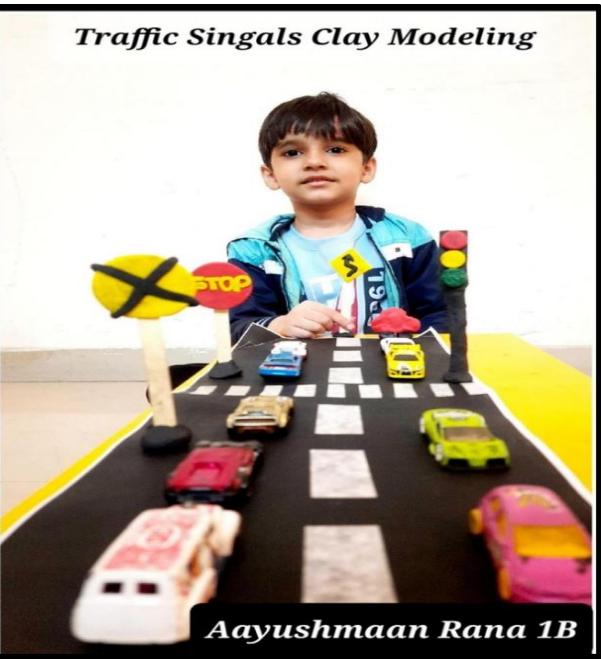

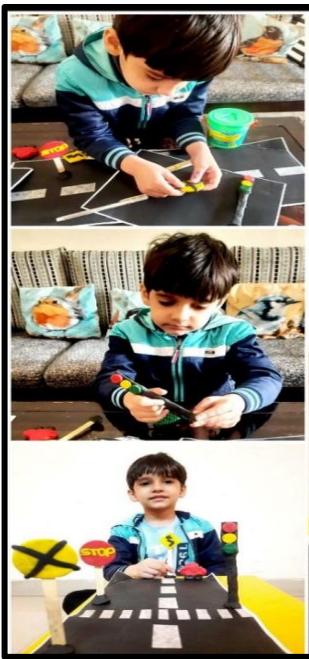

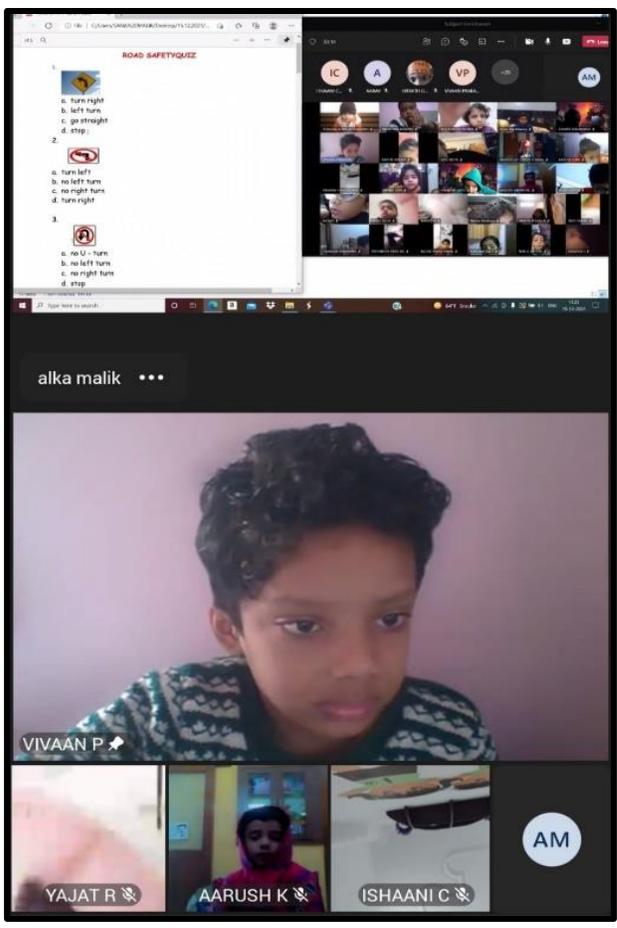

SNAPSHOT

To make students aware of traffic rules and safety measures that we should follow on road. "Road safety week" was celebrated by Lower Primary wing. Students learnt about the safety rules and different sign boards on the road. Various videos were shown to students depicting the importance of safe roads for everyone. Students were told specially about wildlife crossing which are created world over enabling animals to move from one place to another. Kids enthusiastically participated in the road safety quiz and the interactive sessions were held during the whole week.

To sensitize students about the road safety and apprise the young learners about the importance of following safety rules, 'Clay Modelling Competition' on the theme road safety was also organized. Students created some excellent models depicting their clear understanding of the theme.

ECO JAM

“Take care of your minutes and the hours will take care of themselves.”

With the view to sensitize young learners about the importance of taking care of our surrounding by not littering around the LPW organized an ECO JAM session. The Just a Minute competition tests student’s creativity, presence of mind and command over language all within a span of one minute. Students participated in the event with great excitement and enthusiasm and shared their views on leading a sustainable life, creating less of litter, and keeping the surrounding clean.

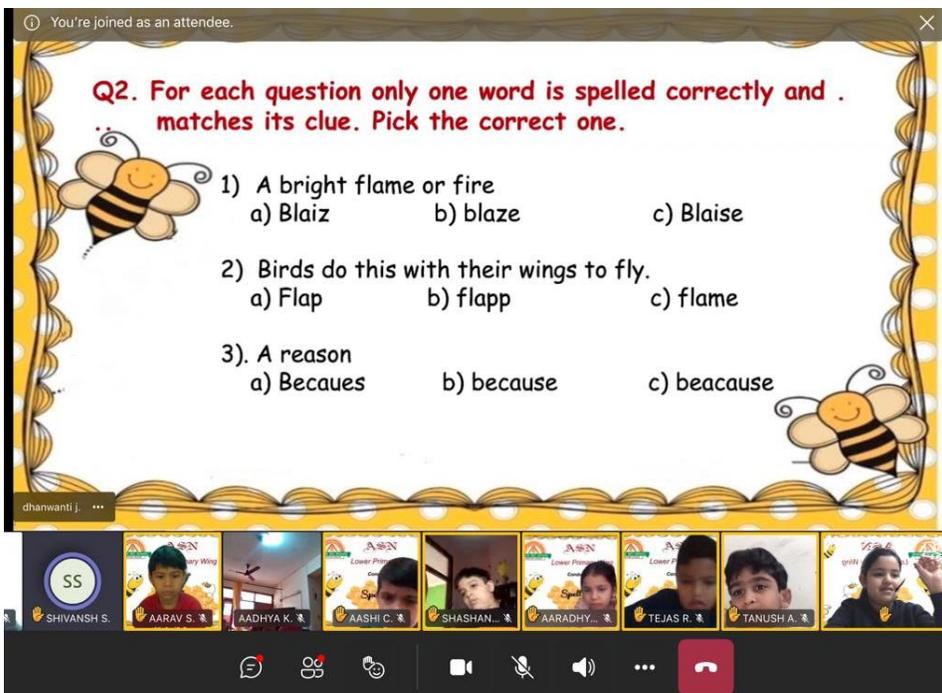

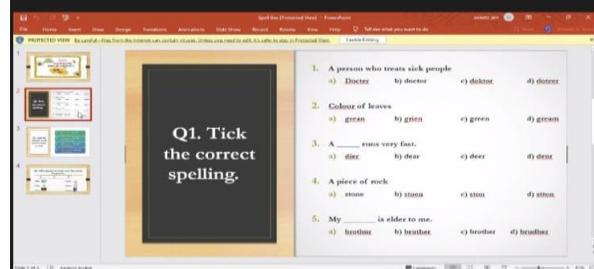

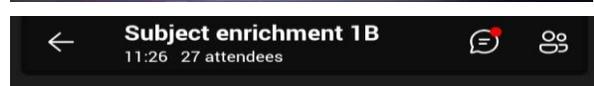

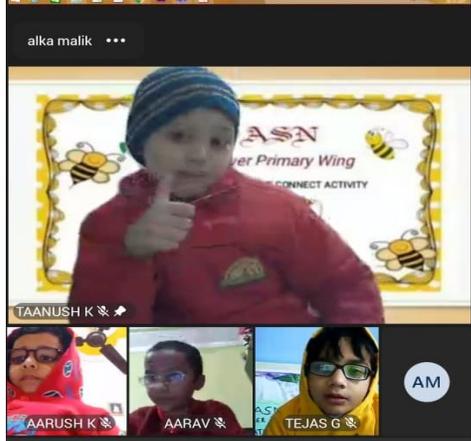

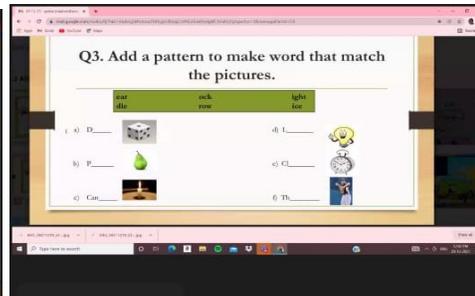

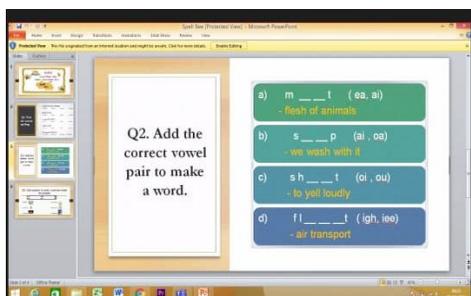

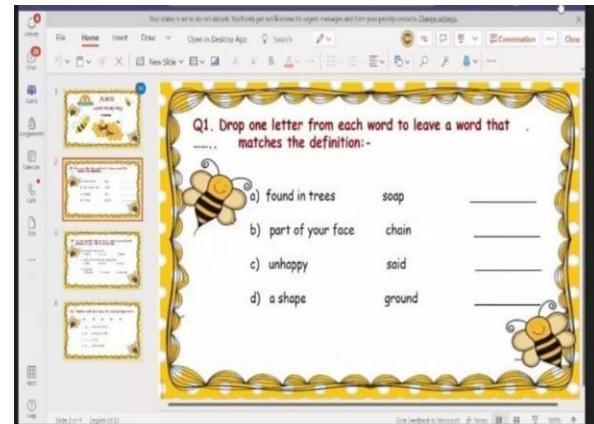

SPELL BEE

SNAPSHOT

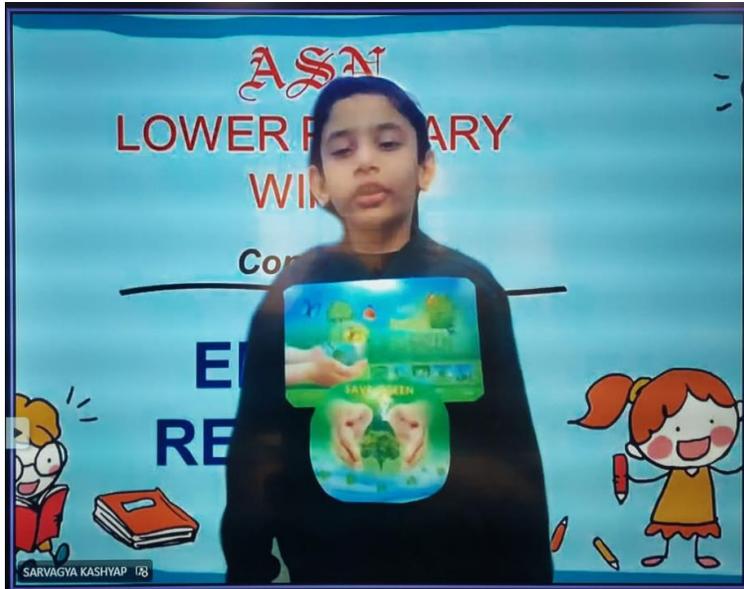

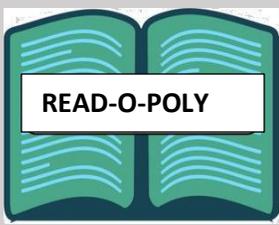

Learning a language is the foremost step in the life of a child as it helps the child to communicate with the world. To concretize this learning in a fun way a virtual Spell Bee activity was conducted by LPW. The activity was organized with the aim of creating awareness of the possibilities of using varied words in oral and written expression and to add words to the active vocabulary of students. The young learners of LPW used their phonic skills and actively participated in the activity. Their enthusiasm while being the part of the activity was par excellence. It was indeed a pleasure for eyes to see imparting knowledge in children in a fun way and seeing the young learners applying their skills at the same time.

Beauty is the realm of poetry:

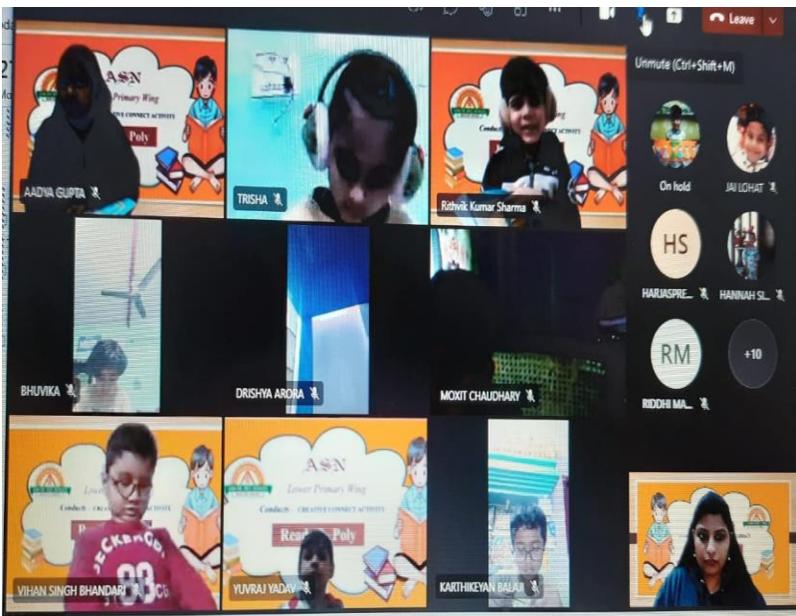

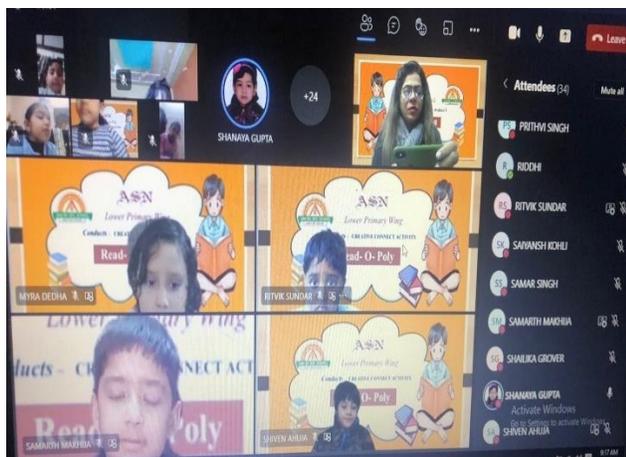

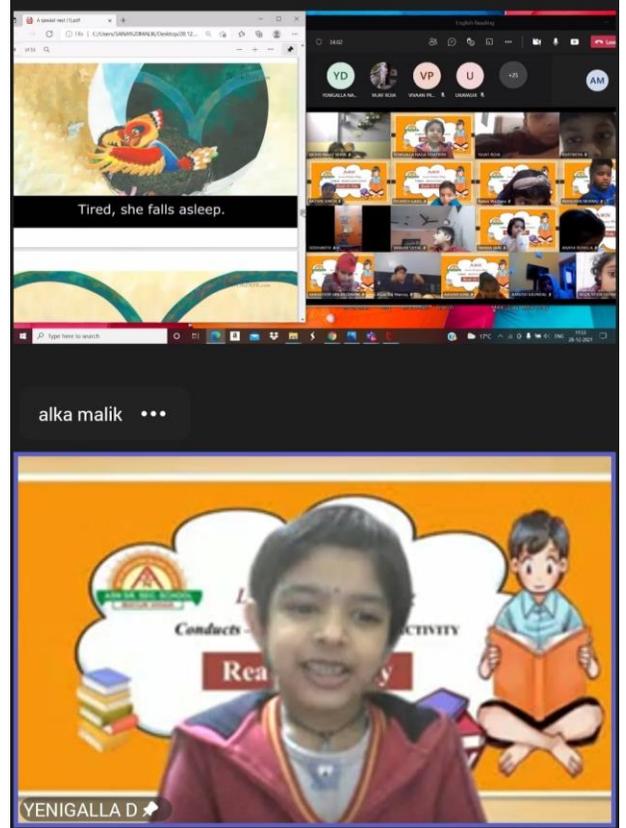

We believe in developing an aware and connected generation by including love for nature in our young learners. To make the students understand the importance of right for clean air and environment and our responsibility towards it, the wing organized English Poem Recitation Competition. The students enthusiastically participated in the competition as they got an opportunity to exhibit their talent and confidence. The competition inspired the young poets to come forward and recite on stage. The students came up with different poems on the themes 'Clean Energy' & 'My Rights My Responsibilities'. Students in the audience enjoyed the perfection of expression, thoughts, emotions, rhythm, and music of words.

Reading is a passport to countless adventures...

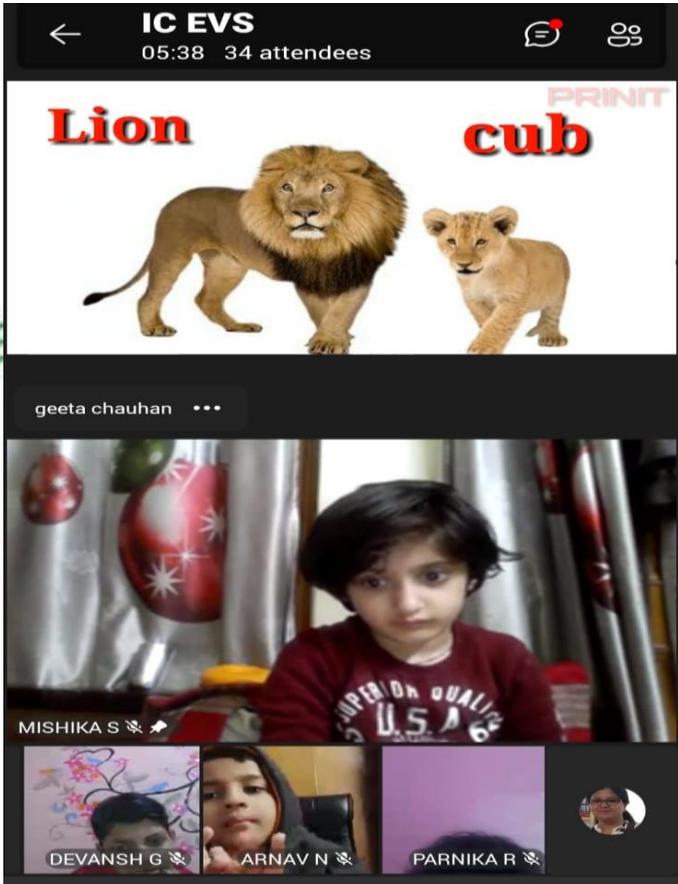

With the thought of inculcating the habit of reading and to develop the skills of critical thinking, we had organized Read - O - Poly activity under Creative Connect. The activity was designed to spark the interest of reading in young learners and to think critically, to come up with various solutions to the problem in story. The entire activity focused on the development of imagination in young learners and to activate & reinforce vocabulary, pronunciation, and various other language skills. Students showed great interest and immense happiness while participating in the activity.

LIFESKILLS WATCH

Design challenge – Empathy maps

Studies do not only mean learning from book and taking test to gauge the knowledge. It also means to think critically and try to solve problems by working on solution. We at ASN believe that students should possess 21st century skills like critical thinking and problem solving. It is always important to start at an early age. With this view students of LPW understood the various steps involved in a design thinking approach. Students approached to hypothetical situations and problems in systematic manner that focuses on the user centric solutions. The young learners have fruitful discussions where they brainstorm and empathise with said user, identify the problems they face.

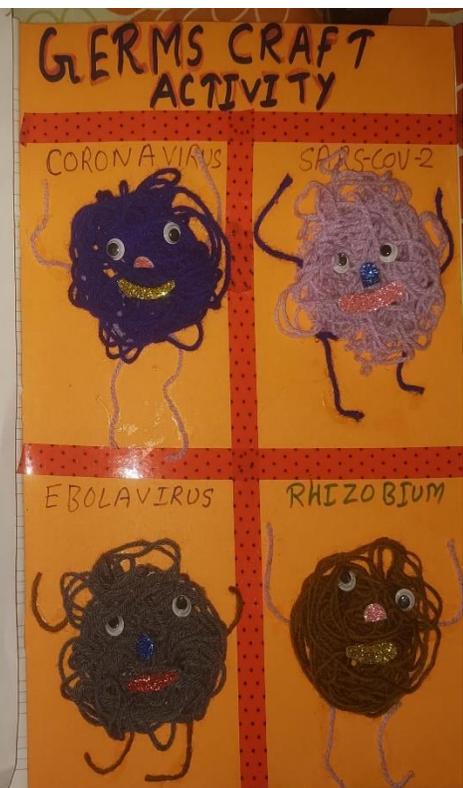

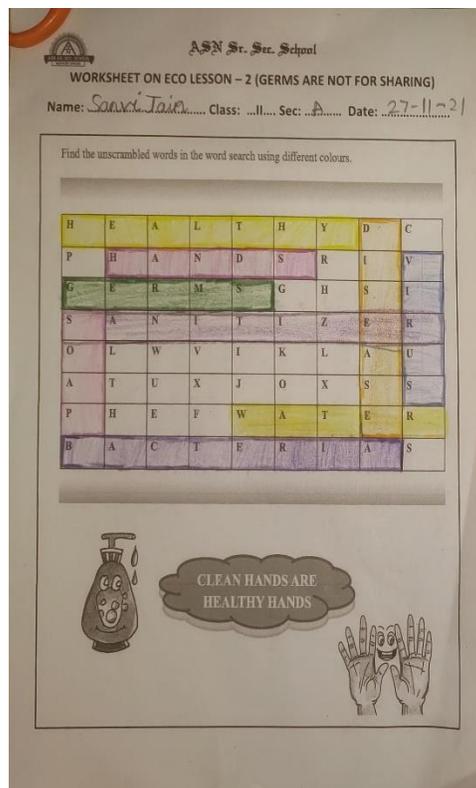

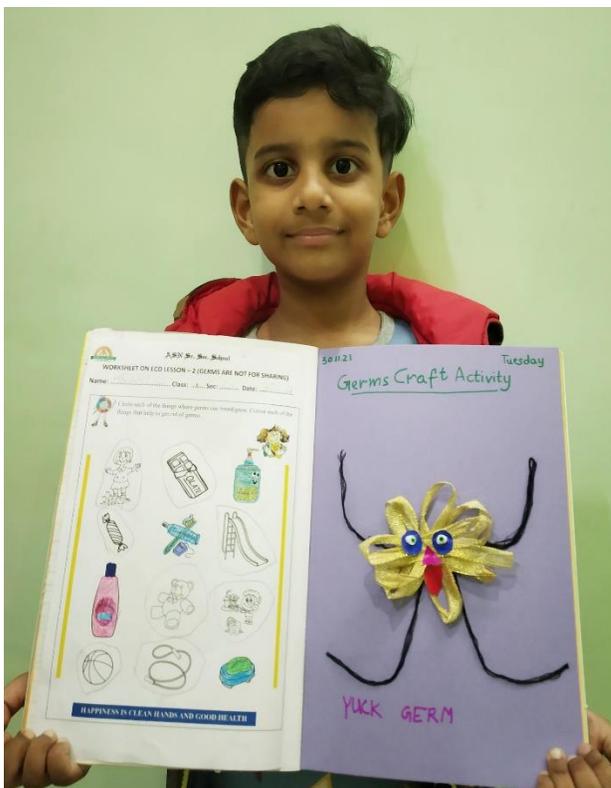

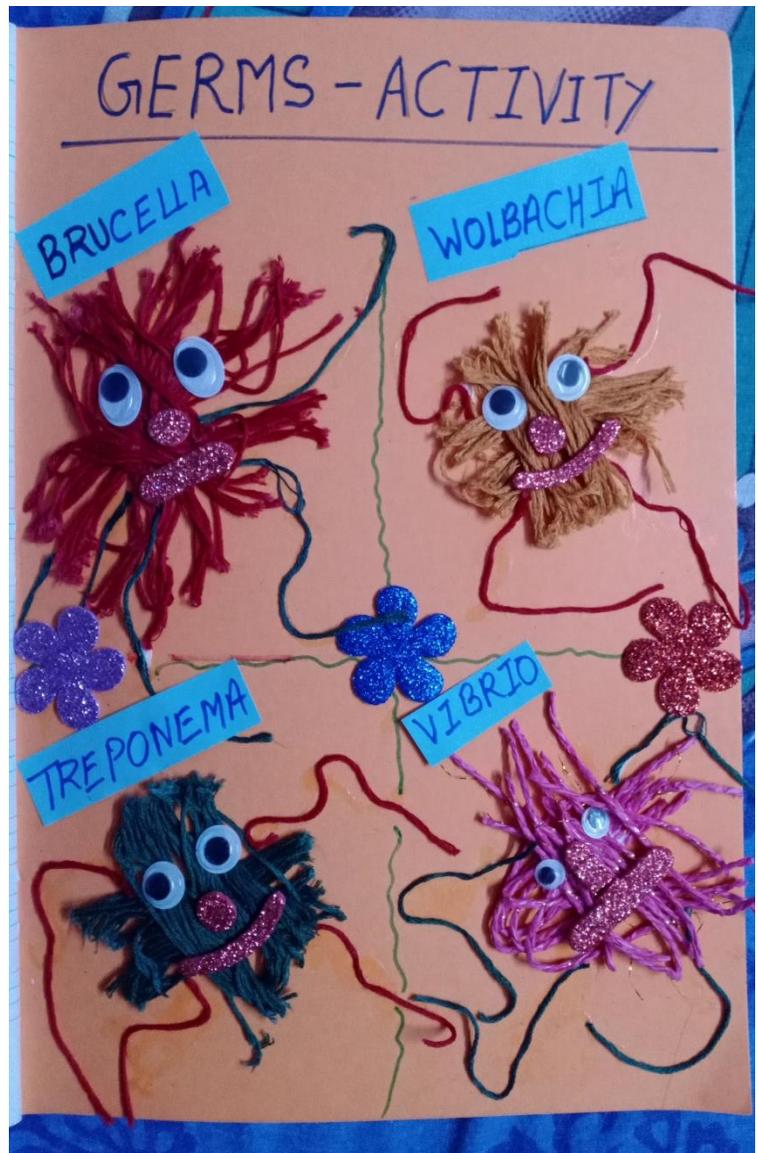

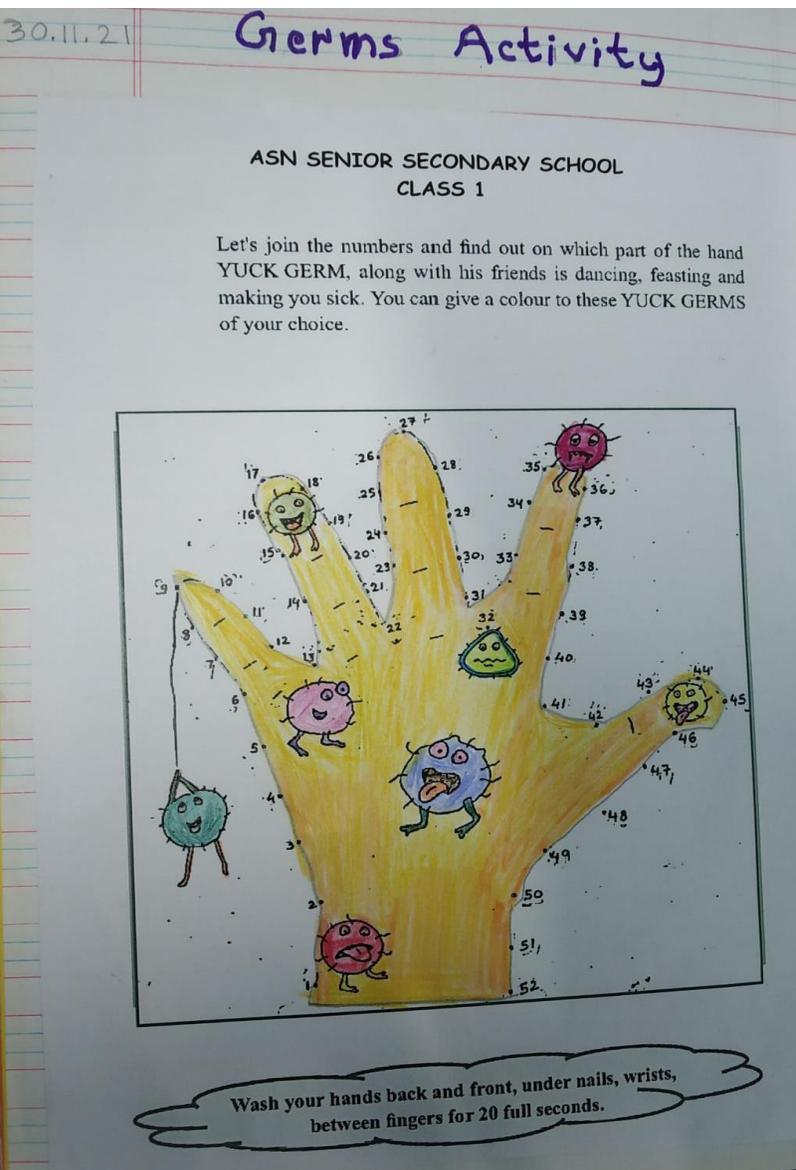

Thank You Mom... for always there for me ❤️

LIFESKILLS WATCH

Eco Lessons – Germs R Not for Sharing

This simple one line slogan conveying a strong message was the main take away of the Global Hand Washing day and was further extrapolated under Eco Lesson . To inculcate the healthy hygiene habit in such unprecedented times the young learners of LPW were sensitized about the importance of washing and cleaning hands to keep the germs at bay. Students were apprised about the ill habit of not washing hands properly and how the germs get transferred by just touching. Thereafter, students enthusiastically participated in 'Germs are not for Sharing' activity and learnt about the science behind it through hands on experiments.

LIFESKILLS WATCH

Sustainable Living – Litter Less Campaign

To sensitize students about keeping their surroundings clean and making them understand that we are responsible for the same from the young age, LPW organized various action oriented activities under litter less campaign. Students were apprised about the facts related to multi-layer plastic and how it has affected our environment. Students after the waste audits, collected the plastic at home and deposited the same at school for its responsible disposition. The young learners also learned to segregate the waste and make compost from tea leaves.

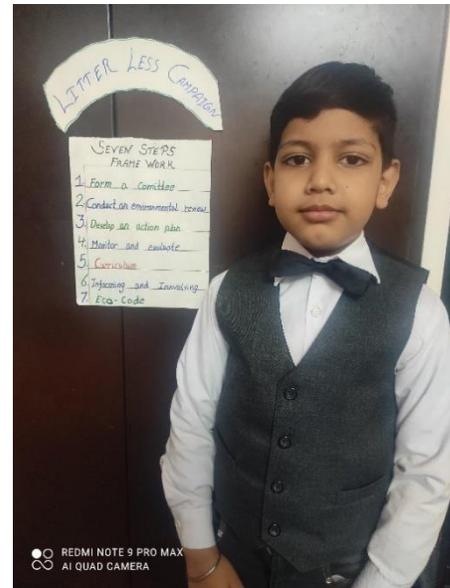

Table 1b.

Date	WET WASTE Kitchen Waste					Estimated Weight
	Vegetable peels	Fruit peels	Egg shells	Tea leaves	Leftover food	
5/12/21	✓	✓	✓	✓	X	500g
15/12/21	✓	✓	✓	✓	✓	520g
16/12/21	✓	✓	✓	✓	X	590g
17/12/21	✓	✓	✓	✓	X	350g
18/12/21	✓	✓	✓	✓	✓	400g

1. Bag from old Tshirt
2. Envelopes from waste wrapping paper

Neighborhood Litter Survey

- I am out and need to dispose trash, I... (tick all that you think are appropriate)
 - (a) Drop it wherever I am
 - (b) Put it in a recycling bin - Put it in a trash can
 - (c) Put it in my pocket until I find a place for proper disposal
 - (d) Leave it behind
- Is litter a concern to you? Yes No
 - (a) looks dirty
 - (b) It is dangerous to animals
 - (c) It is bad for the environment
 - (d) Other (please specify)
- If yes, why is litter of concern to you? (Tick all that you think are appropriate) - It
 - (a) is not good for human health
 - (b) It is dangerous to animals
 - (c) It is bad for the environment
 - (d) Other (please specify)
- Why do you think littering occurs? (Tick all that you think are appropriate) -
 - (a) Inconvenience
 - (b) No trash can nearby
 - (c) Habit
 - (d) Lack of awareness
 - (e) Someone else will clean it up
 - (f) Other (please specify)
- Where does litter end up? (tick all that you think are appropriate) - Land
 - (a) River
 - (b) Sea/ Ocean
 - (c) Landfill
 - (d) Inside bodies of animals
 - (e) Not aware
- What according to you is the most common type of litter found in your school/neighborhood? (choose one.)
 - (a) Plastic bags
 - (b) Chocolate/candy wrapper
 - (c) Chewing gum
 - (d) Food wrappers
 - (e) Cans
- Which locations according to you are the litter "hot-spots" of the school/neighborhood and Why?
near roads, market and stairs because it is public place
- If there were enough dustbins, would you still litter? - Yes -No

Made from old news papers

Christmas Poem.

Do you know Lord Jesus is our
saviour king?
Baby Jesus on his head has a
shining ring.

We go to church to visit Lord King.
We eat and share the yummy pudding.
Best thing in Christmas is making
snowman with snow.
And, wearing green hat, red warm
clothes, playing in snow.

We all sing a Christmas Carol.
We all light up a Christmas candle.

Father Christmas brings us presents
and joy.
Christmas Eve brings us joy and
we all enjoy.

Importance of Cleanliness

I woke up in the morning, After a Dreamy night
My room untidy, with my things spread wide.
My mumma said, to clean my room,
I told my mom, not to swoon.
I ate banana, and threw its peel,
Not in the dustbin, no regrets I feel.
My mom said, it's so bad unclean,
I asked my mom not to care for hygiene.
But when I saw the flies littering,
The diseases they spread, near the uncovered bins.
When they sit on waste and then on my things,
I felt the need of hygiene.
I cleaned my room with a broom,
And swept the waste Shoo! Shoo!
The positivity and the happiness I feel,
By making my room and world so clean.

Priyanshi Jain, Class II-E

Shipra Chauhan of Grade I A has already risen to fame and become a known face with her movies titled '**Sab Moh Maaya Hai**' and '**Velle**'. She has also featured in many TV commercials endorsing branded products and TVCs.

ASNite Shipra Chauhan, the rising star of tomorrow makes us proud yet again!

Happy New Year!
