Dear Parent

Greetings!!

While technology is empowering millions of children and enabling them to express their creativity and stay connected with others, chronic use of technological devices and unmonitored & unprepared cyber presence is exposing them to unfiltered content making them vulnerable in an unknown cyberworld. More than **55%** parents admit of being **under confident in knowing how to keep themselves safe online.**

With an objective to keep children safe on the internet/digital platforms the School_ in association with **Atal Innovation Mission** and **WNS Cares Foundation (WCF)** created a holistic Cyber safety learning ecosystem for education & empowerment of students, volunteers and parents called **'Cyber Smart'**.

The purpose of this platform is to create awareness and educate **students and parents** about cybersafe behavior through an engaging & gamified learning model. The WCF team created informative videos on safe use of Internet for primary and secondary school students making them aware of the dangers of the digital world, what preventive measures they must take, and what they must do if they fall victim to cybercrime.

'CyberSmart' is a free online gamified learning platform that uses thematic quiz-based modules. The children/parent will be able to complete the videos and the quiz in about 15-20 minutes. This activity will ensure the children/parent become aware of the potential dangers and protect themselves and their families. They will be awarded a **'Cyber Smart'** certificate at the end of the session. We request all the parents to go through the Cyber Smart Portal & get yourselves Certified as **"Cyber Smart parent"**. Parents and students are requested to send their certificates to the respective Class Teacher.

Cybersmart Portal Link :- <https://cybersmart.wnscaresfoundation.org/> (*Google Chrome is best suited to visit this portal*).

The portal has four Interface • Student • Teacher • Volunteer • Parents

Each interface comes in English & 9 other Indian languages • English • Hindi • Marathi • Tamil • Telugu • Bengali • Kannada • Malayalam • Gujrati • Urdu

Showcase Video Link:- <https://www.youtube.com/watch?v=13SdfE-OVKE>

Looking forward to have smart netizens in this global world.

Swarnima Luthra
