MAYUR VIHAR - I

SESSION – 2022-23

**SYLLABUS
FOR
CLASS VI**

SYLLABUS FOR CLASS VI (2022-23)

ENGLISH

Learning Objectives in English:

- 1.To hone the four Language skills-Listening, Speaking, Reading and Writing in the learner.
- 2.To evoke emotional responses in the young learners.
- 3.To facilitate experiential value-based learning.
- 4.To encourage out of-the-box thinking.

Books Prescribed-

- New Pathways VI (Coursebook)
- English Grammar & Workbook VI

Story Books

- A Pact with the Sun (NCERT)
- How I taught my grandmother to read & other stories (Sudha Murthy)

MONTH	LITERATURE	LEARNING OBJECTIVES	ACTIVITY				LEARNING OUTCOMES SWBAT
April	LITERATURE: <i>Unit-1 Growing Up</i> 1. How Daddy played Ping-pong 3. The story of Fidgety Phillip (Poem) GRAMMAR: Parts of Speech WRITING: Paragraph Writing	To relate their wishes and interests with the current chapter in order to realise the importance of following passions in life To recall & identify eight basic Parts of speech in order to use parts of speech and be able to frame meaningful sentences To develop their creativity and imagination in order to Learn to express their thought/ statement/ idea effectively.	“My aspirations & dreams” (Speaking skills) Compose a hilarious acrostic poem. ACROSS CULTURE BOOK Material Required:				learn about different ways to be happy and contented in order to introspect themselves better frame grammatically correct sentences in verbal expressions. Express themselves and their thoughts effectively
			PARTS OF SPEECH	FUNCTION OR JOB	EXAMPLE WORDS	EXAMPLE SENTENCES	
			Notebook, stationery				

SYLLABUS FOR CLASS VI (2022-23)

May	<p>LITERATURE: 2. How I taught my grandmother to read</p> <p>GRAMMAR: Sentences</p> <p>WRITING: Picture Composition</p>	<p>To understand the gist in order to reflect upon the factors that help gain freedom from the darkness of ignorance</p> <p>To identify different types of sentences in order to use them in different Situations</p> <p>To be analytical and logical in order to understand the difference between various genres of writing.</p>	<p>Prepare an advertisement to promote Adult Literacy. Materials required: sheet, colours, glitters</p> <p>Write an interesting conversation of two people, comprising of all kinds of sentences Materials Required: A4 size sheet</p> <p>Prepare a flashcard, depicting a social message. Material Required: cardboard, colours, markers, decorative items.</p>	<p>Learn and appreciate the value of determination and perseverance</p> <p>Differentiate between the different types of sentences in order to use them efficiently while communicating</p> <p>Generate a connect between artistic skills and thematic learning</p>
July	<p>LITERATURE: <i>Unit-2 Nature's Bounty</i> 1. The story of Amber beads 2. The Cherry Tree- Ruskin Bond</p> <p>GRAMMAR: Tense (Present and Past, Future Tense)</p> <p>WRITING: Formal Letter (Leave Application)</p>	<p>To understand the gist in order to reflect upon the factors that help value bounties of nature.</p> <p>To identify different types of sentences in order to use them in different Situations</p> <p>To be analytical and logical in order to understand the difference between various genres of writing.</p>	<p>ASL: A Pact with the Sun Mask-Task Materials Required: Cardboard, scissor, string, colours</p> <p>Prepare a tabular tense chart. Materials Required: A4 size sheet ,colours, stationery</p>	<p>Be responsible towards the conservation of Nature and explore sustainable methods to heal the earth .</p> <p>Differentiate between different types of tenses in order to use them efficiently while communicating.</p>

SYLLABUS FOR CLASS VI (2022-23)

August	<p>LITERATURE: On the Grasshopper and the Cricket (Poem)</p> <p>GRAMMAR: 10 Idioms (Workbook)</p> <p>WRITING : Dialogue-writing</p>	<p>To make them realise the value of diligence .</p> <p>Learn and use correct idioms in order to be articulate</p> <p>Learn to write in a cohesive manner in order to Use new format accurately</p>	<p>FREE-IDIOM OF SPEECH Make a Video of a conversation using Idioms . Material Required: Camera device, editing app</p>	<p>Use time wisely and productively .</p> <p>To improve their vocabulary .</p> <p>Interact impressively and coherently .</p>
<p>SEPTEMBER</p> <p style="text-align: center;">MID-TERM EXAMINATION</p>				
October	<p>LITERATURE <i>Unit 4: Playing Fair-</i> 1. Mary Kom: Never Say Die 3. Olympic Granny (poem)</p> <p>GRAMMAR: Phrases & Jumbled Sentences</p> <p>WRITING : Picture Composition Paragraph-writing (Factual Description of Person and Place)</p>	<p>Learn the indomitable spirit to fight challenges and overcome them.</p> <p>Understand the concept and structure in order to be able to frame relevant sentences</p> <p>Relate the sequence given in clues in order to write paragraph in proper sequence</p>	<p>Make a PPT on “My favourite Sports person”.</p> <p>Material Required: Electronic device</p>	<p>To comprehend the struggles of a sports person and imply it in their real life.</p> <p>To frame meaningful sentences with correct structure.</p> <p>To pen down their imagination on paper vividly.</p>
November	<p>LITERATURE: 2. Return to Air-Ann Philippa Pearce</p> <p>GRAMMAR:Punctuation</p> <p>WRITING :Informal letter</p>	<p>Comprehend the text in order to answer the factual, inferential, referential and evaluative questions</p> <p>be clear about the different Punctuation Marks in order to write complete and coherent sentences</p> <p>Develop their creativity and imagination.</p> <p>learn to express their thought/ statement/ idea effectively.</p>	<p><i>Video View: Make a short Video</i> sharing any experience of your fear/fears and how you overcame it .</p> <p>Material required: Camera graphics</p>	<p>To analyze the situations where one can overcome one's fears and find suggestive measures.</p> <p>To frame correct sentences grammatically. To express feelings in an informal letter format .</p>

SYLLABUS FOR CLASS VI (2022-23)

December	<p>LITERATURE: Unit 6 :The Unexplained Section 1:Lob's girl</p> <p>GRAMMAR: 10 Proverbs(Workbook)</p> <p>WRITING : Story -writing PRE -ANNUAL EXAM</p>	<p>Understand and appreciate the elements of mystery and suspense.</p> <p>Understand the advice reflected in proverbs in order to use effectively</p>	<p>ACTIVITY : Prepare a Spooky /Halloween Mask .</p> <p>Material Required: cardboard ,paper ,scissor ,thread</p>	<p>To comprehend the character of the main protagonist .</p> <p>To use Proverbs effectively in day today life .</p>
January	<p>LITERATURE: Section 3 :ColonelFazackerley Butterworth Toast</p> <p>Revision</p>	<p>Understand and appreciate the elements of humour and comedy in a haunted backdrop .</p>		<p>To enjoy the spirit of fun in the poem.</p>

SCIENCE

SYLLABUS FOR CLASS VI (2022-23)

PRESCRIBED BOOKS:

Science NCERT Book
Eureka Plus Science Class-6
Activity Record (Laboratory Manual)
BMA Book

MONTH	CHAPTER	LEARNING OBJECTIVES	ACTIVITIES	LEARNING OUTCOMES
April	BIO-L-1 Sources of Food BIO-L-2 Components of our food	To create awareness about the role of Balanced Diet in maintaining good health. To explore how deficiency diseases can be prevented.	<ul style="list-style-type: none"> To prepare sprouts. Material Required: Soaked moong dal, salt, chat masala. To test the given samples of food for starch, proteins, and fats. Material Required: Food Samples, paper 	<p>Devise a diet chart for an 11-year-old to plan a nutrient rich diet.</p> <p>Determine the eating habits of animals to classify them as herbivores, carnivores, and omnivores.</p> <p>Categorize the nutrients as Energy giving food, Protective food, and Body Building food.</p> <p>Identify various sources of nutrients present in food items to maintain our body.</p>
May	L-16 Garbage in, garbage out	To make the best use of available things and reduce wastage.	To recycle old items into make creative and useful items Material Required : Used articles, fevicol, tapes etc.	<p>Segregate waste as biodegradable and non-biodegradable</p> <p>Create useful materials from waste materials</p>
July	CHEM-L-3 Fibre to Fabric PHY-L-13 Magnets BIO L-8 Body movements	To understand various processes involved in the journey of fibre source to fabric. To enlist the properties of magnet in order to predict their uses in daily life. To Comprehend the body types of	<p>To make table mat by weaving strips of paper strips. Material required: Paper strips of different colours, scissors and fevistik.</p> <p>1.To make a temporary magnet. Material Required : A bar magnet, an iron piece. 2. To illustrate various properties of magnet. Material Required : Bar magnets, thread.</p>	<p>Illustrate the use of different type of material for clothing in order to understand the need of clothes for protection.</p> <p>Compare natural and artificial fibres in order to understand their characteristics.</p> <p>State the applications of magnets in every day life</p> <p>List the properties of magnets in order to predict their use.</p> <p>Classify joints in order to understand the</p>

SYLLABUS FOR CLASS VI (2022-23)

		organisms in order to understand the gait of animals	1. To make model of Ball and socket joint and Hinge joint. Material Required : Plastic ball, stick/ pencil, Scissors, fevicol.	range of the motion. List the functions of the skeletal system.
August	<p>PHY-L-10 Motion and measurements of distances.</p> <p>CHEM-L-14 Water</p> <p>CHEM-L-4 Sorting materials into Groups</p>	<p>1. To understand and identify various types of motion in real life situations.</p> <p>To spread awareness about the importance of conservation of water.</p> <p>To recognize different types of materials and classify them on the basis of their properties.</p>	<p>1. To measure the length of a book using a broken scale. Material required : any book, broken scale, pencil.</p> <p>2. To measure length of a curve line using string. Material required : String, pencil.</p> <p>1. Water Audit for Gardening/ Household Purposes</p> <p>2. To show tiny drops of water appear on the outer surface of a glass containing a cold water.</p> <p>1. To classify the given objects as transparent, translucent and opaque. Material required : plastic folder/ruler, notebook, tracing paper.</p> <p>2. To identify if materials will float or sink in water.</p>	<p>Measure the length of a curved line with the help of a thread Study the various types of motion in order to classify them.</p> <p>Predict the consequences of too little and too much rain in prefer to understand flood and drought Justify the importance of rainwater harvesting in order to create awareness for water.</p> <p>Identify the properties of materials in order to classify them into various groups. Distinguish between transparent translucent and opaque objects in order to sort them into proper groups.</p>
September	Revision Mid Term Exam			
October	<p>PHY-L-15 Air around Us</p> <p>CHEM-L-6 Changes</p>	<p>1. To understand the importance of air and to control air pollution.</p> <p>1. To identify and recognize different types of change taking</p>	<p>1. To show that air occupies space. Material required : Plastic bottle, container.</p> <p>2. To show air is present in soil and water. Material required : lump of soil, container, water.</p> <p>1. To observe chemical</p>	<p>List the uses of various components of air. Justify the importance of oxygen cycle in order to explain the importance of trees to maintain oxygen cycle.</p> <p>Distinguish between physical and chemical changes in order to classify them properly</p>

SYLLABUS FOR CLASS VI (2022-23)

	around us	place around us.	change by mixing vinegar and baking soda. Material required : baking powder, vinegar and container.	Illustrate how changes are important in real life.
November	BIO-L-7 Getting to know plants PHY-L-11: Light, shadows & reflection.	To categorize the plants into different groups and analyse the function of each part of plant. To study properties of light and understand process of shadow formation.	1.To show conduction of water/minerals by stems in plants. Material required : a potted plant, red/blue ink, water. 1.To construct a model of pinhole camera. Material required : Two cardboard boxes, scissors, tracing paper. 2. To show different shapes of shadows. Material required : Torch, different objects.	Identify herbs, shrubs and trees in order to classify them according to their size Enlist the functions of root stem leaf in order to understand the modifications in different plants. Distinguish between transparent translucent and opaque objects in order to sort them into proper groups. Construct a model of a pinhole camera in order to demonstrate the rectilinear propagation of light
December	CHEM-L-5 Separation of substances BIO-L-9 Living organisms and their surroundings	To understand need of separation of mixtures and apply different methods in daily life. To understand adaptations of living animals in their habitats.	1.To prepare a saturated salt solution. Material required : Sugar/salt, water, spoon. 1. Make a report on any five living organisms of specific habitats.	Comprehend why mixtures need to be separated Predict the method of separation on the basis of the properties of the components of a mixture. Distinguish between biotic and abiotic components of habitat in order to understand their interdependence Classify things as living or non living by comparing them with the characteristics of living objects.
	PA II Exam			
January	PHY-L-12 Electricity	To identify the possible causes of not working of any electric circuit.	1.To connect various components of an electric circuit and understand its working. Material required : torch bulb, wires, electric cell. 2.To segregate materials as	Draw and label the diagram of a torch to explain how it works Distinguish between conductors and insulators to predict their use in various situations

SYLLABUS FOR CLASS VI (2022-23)

			conductors and insulators. Material required :switch,wire, torch bulb, electric cell,wires, pencil,pen, paper clip, iron nail.	
February-March	Revision & Final Exam

Final exam (February-March)	

MATHS

Learning Objectives:

1. To develop patience and persistence when solving problems
2. To develop mathematical curiosity and use inductive and deductive reasoning in school and real life.
3. To develop abstract, logical and critical thinking.
4. To develop the knowledge, skills and attitudes and necessary to pursue further studies in maths.

Prescribed books :

1. Maths(NCERT)
2. BMA Talent and Olympiad Book

Books for reference:

1. Enjoying Mathematics by Oxford
2. Maths Time by Orient Black Swan.

MONTH	CHAPTERS	LEARNING OBJECTIVES	ACTIVITIES	LEARNING OUTCOMES
April	Ch 1 Knowing our Numbers Ch 2 Whole numbers	<ul style="list-style-type: none"> To enable the students to compare the place values of different numbers. To apply the knowledge of large numbers in real life. To estimate the numbers to the nearest ten, hundred and thousand. To analyse and implement different properties of whole numbers. 	<p>Activity:1 Making 3D wall clock using Roman Numerals. Material Required: Cardboard, straws, matchsticks, sketchpens etc.</p> <p>Activity:2 Creating Patterns Material Required: A4 size sheet and sketchpens</p>	<p>SWBAT:</p> <ul style="list-style-type: none"> Build the greatest and the smallest numbers with the given digits in order to make them understand the value of the digits. Explain the periods and places of both systems for use in day-to-day life. Solve problems involving large numbers by applying appropriate operations (addition, subtraction, multiplication and division). Estimate the sum, difference and the product of the numbers. Read and write Roman numerals and apply the rules to be followed to form them. Describe the properties of whole numbers.
May	Ch 4 Basic Geometrical Ideas	<ul style="list-style-type: none"> To make the students identify different types of lines. To explain the different elements of Circle, Triangle and Quadrilaterals. 	<p>Activity 1: Sierpinski Triangle</p> <p>Material Required: Ruler, sketch tool kits etc.</p> <p>Activity 2: Making an E- invitation card for birthday party using different geometrical shapes.</p>	<p>SWBAT:</p> <p>Describe geometrical ideas like line, line segment, open and closed figures, angle, triangle, quadrilateral, circle, etc., with the help of examples.</p> <ul style="list-style-type: none"> Explore various shapes through concrete models and pictures of different geometrical shapes like triangles and quadrilaterals, etc.
July	Ch 9 Data Handling Ch 6 Integers	<ul style="list-style-type: none"> To develop the skill to collect, organise, analyse and interpret the information among the students. To apply the knowledge of Integers in day- to-day life 	<p>Activity1: To find the sum and the difference of positive and negative integers using interlocking cubes or playing cards . Material Required: Playing Cards and Interlocking cubes</p> <p>Activity2: Making Crosswords</p>	<p>SWBAT:</p> <p>Arrange given/collected information such as expenditure on different items in a family for the last six months, in the form of table, pictograph and bar graph and interpret them.</p> <ul style="list-style-type: none"> Numerical data graphically as pictograph or bar graph. Compare, add and subtract the integers

SYLLABUS FOR CLASS VI (2022-23)

August	Ch 10 Mensuration Ch 5 Understanding elementary Shapes.	<ul style="list-style-type: none"> To understand the concept of Area and Perimeter of regular and irregular figures. To identify 2D and 3D shapes from the surroundings. 	<p>Activity :1. To find the perimeter of various objects which have the regular shapes.</p> <p>Activity:2 To find the area of your palm using graph sheet or squared paper.</p> <p>Material Required ; Graph sheet , squared paper and sketch pens</p> <p>Activity:3 3D illusions</p>	<p>SWBAT: Find the perimeter and area of regular and irregular shapes.</p> <p>Differentiate between perimeter and area of a figure in order to apply the same in different situations.</p> <p>Make different shapes with the help of available materials like sticks, paper etc..</p>
September	Revision and Mid Term Exam			
October	Ch 7 Fractions Ch 8 Decimals	To make the students understand the use of fractions and decimals in different real life situations.	<p>Activity :1 Fractions With Tangram</p> <p>Material Required :- Origami sheets, scissors and sketch pens</p> <p>Activity :2 Create any design using different colours on squared paper and write the fraction and the decimal for the different colours used in design.</p> <p>Material Required ; Coloured sheet and colours</p>	<p>SWBAT: Use fractions and decimals in different situations which involve money, length, temperature etc. For example, $7\frac{1}{2}$ metres of cloth, distance between two places is 112.5 km etc.</p> <p>Solve problems in daily life situations involving addition and subtraction of fractions/decimals.</p>
November	Ch 8 Decimals(cont.) Ch 3 Playing with numbers	To enhance the knowledge of HCF and LCM of numbers in order to apply in everyday life.	.	<p>SWBAT: Identify different types of numbers. Apply HCF and LCM in a particular situation.</p>
December	Ch 11 Algebra	To develop the concept of algebra to help solve different situations in day-to-day life	<p>Activity : Creating Matchstick Patterns</p> <p>Material Required: Matchsticks and fevistick</p>	<p>SWBAT: Recognize technical terms of algebra and apply some of the uses of Algebra.</p>
January	Ch 12 Ratio and Proportion Ch 13 Symmetry Ch-14 Practical Geometry	To recognize and apply ratios and proportions to solve real life problems.
