JUNE 2021 VOL. 2

CLASS - NURSERY

Message from Incharge

Dear Parents,

Greetings!

Powered by technology and inspired by the new science of learning, the world is at the vanguard of revolution in learning and teaching. What we learn and how we learn is being redesigned to make it futuristic. Research says the future of work is going to evolve in unimaginable ways. The majority of today's children attending kindergarten will find themselves in occupations that do not exist now. This means we have to prepare our children for jobs that have not been created yet, for technologies that have not been invented yet, and for solving problems that are difficult to anticipate today.

At our school we are always committed to providing best-in-class facilities and embracing the latest educational practices to meet our children future-ready and to equip them with 21st century skills. Active and self-paced learning; personalised and differentiated instruction; project-based learning; a blend of in-person and virtual classroom experiences; and cross-functioning activities in environmental sciences, technology, engineering and performing art (STEAM) is at the heart of our curriculum model. So, parents we at ASN, our continuously reinventing ourselves every day to make the learning process fun and enjoyable for our little hearts!

And, as I share with you the newsletter for the month of June, I want to take this opportunity to express my sincere thanks for the encouraging feedback we have been receiving from parents on the virtual school. It is heartening that our children are really enjoying this new mode of learning.
Together, let's build our school into a timeless institution, a school of the future.

Stay safe, stay healthy

With Best wishes,

SARIKA SRIVASTAVA
Incharge - Pre-Primary Years

Inside this Issue:

- Events and Celebrations
- Experiential Learning
- Social Emotional Connect
- Experimental Learning
- Subject Enrichment Activities

Upcoming Events:

- Doctors Day Celebration
- Hygiene Week
- Planter Decoration
- Save the Black Stripes (World Tiger Day)

SNAPSHOTS of the month

Events and Celebrations

INTERNATIONAL YOGA DAY

"Yoga adds years to your life and life to your years."

International Yoga Day was celebrated with great zeal by our tiny tots. They did different yoga poses with great ease giving everyone the message that a healthy mind resides in a healthy body.

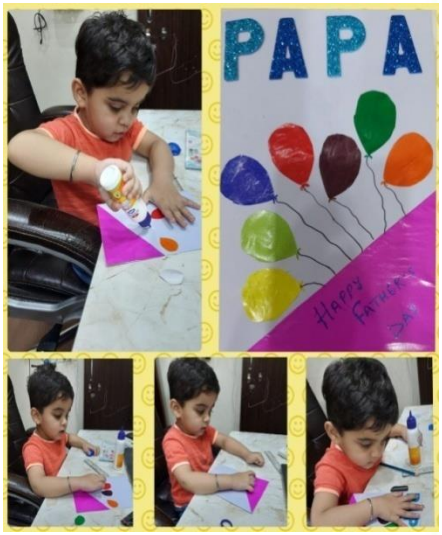

FATHER'S DAY CELEBRATION

"A father is someone you look up to no matter how tall you grow."
The School makes the time with occasions such as this, to foster the importance of relationships and family values. The tiny tots decorated their handmade cards and penned down heart-warming expressions to make their fathers feel special on the occasion of Father's Day. The sight of the cards was delightful and insightful. It was a memorable creation which the fathers and children would cherish forever.

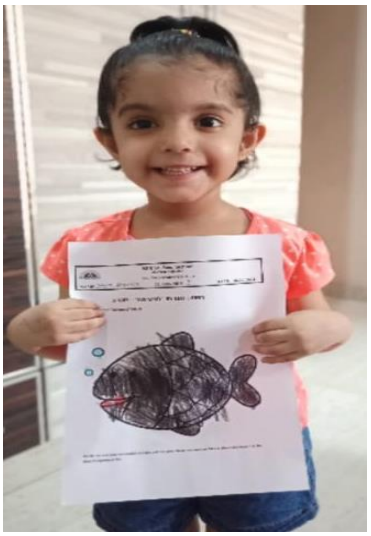

Social Emotional Connect

STORY FUN

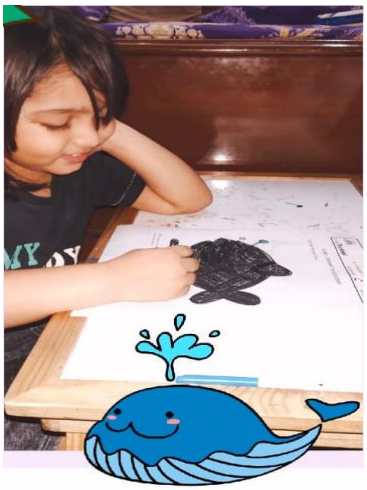

‘Swimmy’ a story by Leo Lionni was taken up for developing self-love and creating self-management skills. Swimmy the fish, showed the children that how with ingenuity and team work –they can overcome any danger.

EMOTION CONNECTION – MOOD METER

Emotional regulation is a particularly important skill for students to learn as it affects students' ability to make decisions, persist in goal-oriented activities, and seek help when needed. Fun activiti es are regularly organized to help the little ones explore and regulate their emotions.

EXPERIENTIAL LEARNING

SUMMER FUN

Summer is always a special time for some fun and frolic. Students enthusiastically participated in ‘Beat the Heat’ summer fun Activity. They all created their shopping bag and added things needed in summer in it. They also used their creativity to make an ice cream bowl in their scrapbooks.

PLE(Practical Life Experiences)

ACTIVITIES

Through these activities the children learn to follow a complex motor sequence independently. For children these activities are complicated, multi-step processes that pave the way for a problem-solving mindset and a fulfilling experience.

Many PLE activities were done and enjoyed by the students like- zipping/unzipping, buttoning/unbuttoning, rolling/unrolling of table mat, threading on the lacing board, aimed at developing a high level of concentration, a sense of order, increased independence, and improved fine motor skills.

PEGGING ACTIVITY

&

CLAY MOULDING

Pegs are great for building strength of fine motor muscles and coordination. Pegging activity was organized to encourage the pinching action between the thumb and finger, which helps in the development of good finger grip of the children.

Clay is one medium that promotes creativity and encourages play based learning. The little artists showed their creativity by making different things like – ice cream, smiley, sun etc.

'FANTASTIC FABULOUS FRUIT PLATTER'

Students used their creativity to design a beautiful fruit platter loaded with tons of vitamins and minerals for their good health. This helped to inculcate healthy eating habits in them and also enhanced their taste buds.

EXPERIMENTAL LEARNING

BIG & SMALL

The concept of Big and Small was introduced with the help of experiment of blowing air in the balloon, and then blowing it off. The children even shared different big and small objects, they discovered in their home setting.

SHAPES

The children were introduced to the different 2D shapes in a fun and enchanting way. They enjoyed learning about shapes with different activities like- paper folding, handkerchief printing, making a boat with triangle and tracing on objects.

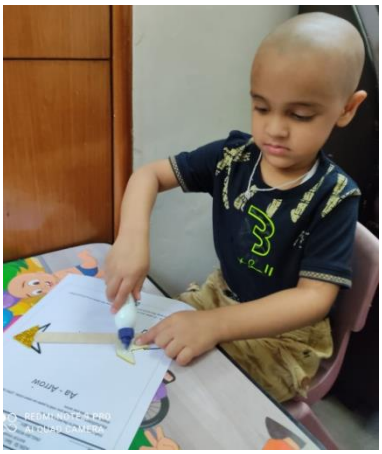

SUBJECT ENRICHMENT ACTIVITIES

INTRODUCTION OF LETTERS

Students enjoyed learning letter sounds with help of magic bag, sound stories, jingles, PPTs , art and craft activities, semolina tracing, simple drawings and many other fun loving activities.

INTRODUCTION OF NUMBER

1

Number one was introduced with the help of amazing facts, and number and quantity association games. Students enjoyed making the sun with clay, marking an association to the universal fact.

Parent Tips and Tricks

Learning how to read is a developmental process just as learning how to walk and talk. As parents and teachers, we need to provide encouragement with our words and actions to help your child along his/her journey of learning how to read.

Pictures are important

*pictures provide the reader with important information from the story. Please allow your child to use the pictures to help him/her solve new words and gain meaning of the text.

If reading is fun, your child will want to read over and over again. Find a place to read that is comfortable and has little distractions. Set aside a time to read. Reading before bed is a great time to wind down and relax. It quickly becomes a bedtime routine that your child will look forward to.
